Website https://portfolio-black-ten-19.vercel.app/

I started my career developing simple projects for small companies, currently I develop complex systems focused on processes. OBS: I live in Brazil, the names of the companies are in portuguese

💼 Work History

2024 - present

Desenvolvedor full stack

Dolphin Soluções em Engenharia, Gravataí - RS

Development and Architecture of complete applications with NodeJS and ReactJS integrating with other technologies (Google Cloud, Firebase, Mysql...). I started working on a legacy Java desktop system, solving bugs and improving performance.

2023-11 - 2024-07

Salesforce Developer (Internship)

Sr Consulting, Porto Alegre - RS

Development of business rules with Apex Language (Java engine) in which I applied architecture, object orientation and database concepts. I also developed LWC's with Javascript + HTML and organization settings.

Freelance Developer

Lorenzato Autocenter, Gravataí - RS

I developed an institutional website for the company, which you can check out at https://lorenzatopneus.com.br/.
GitHub repo: https://github.com/EdwardoMelo/lorenzato-Landing-page

Freelance Developer

L&F Esteiras e Peneiras, Gravataí - RS

I developed an institutional system for the company with the design described by the client. You can check it out at https://l-f-website.vercel.app/#footer
GitHub repo: https://github.com/EdwardoMelo/L-F-Website

🎓 Education

2022-05 - present

Analysis and systems development

UNISINOS, São Leopoldo - RS

5th semester

⚡ Skills

Typescript

ReactJS

React Hooks

NodeJS (Express)

SQL (Relational Database)
